

# CAF to H<sub>2</sub>O

with just one nozzle.

**Elkhart Brass**  
Fire Fighting Equipment

## Here's a switch.

### A nozzle that lets you go from CAF to H<sub>2</sub>O with a click of the tip.

Introducing the Flex Attack™ from Elkhart Brass. Our new CAF Nozzle quickly switches between wet foam, dry foam and water only without shutting down. Now there's no need to compromise when fire fighting. Click up for a huge unobstructed waterway to produce shaving cream dry foam. Click down for a hard hitting <sup>15</sup>/<sub>16</sub>" smooth bore. The Flex Attack is durable, dependable and best of all simple to use. Exactly what you'd expect from Elkhart Brass.
