

# Give The *Stinger* a Lift with.....

## *The PIPE*

Extend the height of a deck mounted *Stinger* monitor 18 inches by utilizing this new accessory... *The PIPE* . By removing the *Stinger* from the 8298 top mount adapter and attaching the new 8298EX, the *Stinger* can then be mounted at the top of *The PIPE* ...thus extending it 1.5 feet higher. It is made of durable, lightweight Elk-O-Lite® and is finished in red acrylic/urethane enamel with hard anodized trim. Weighing only 9.9 lbs,

*The PIPE* installs (or is removed) in seconds.

Without a doubt, 8298EX extends the capabilities of the *Stinger* !

Note: *The Pipe* (8298EX) is not for use on portable bases. It must also be used only on a new style Top Mount Adapter (8298).
